

SIN CITY CHAPTER

DRIVING SCHOOL

PRE-EVENT TECHNICAL INSPECTION

INSTRUCTIONS: The driving school participant is solely responsible for the safe condition of the car to be driven to, at, and from this event. Participants must have their vehicle inspected no earlier than 4 weeks before the event. A qualified individual who is familiar with the make and model of the vehicle should perform the inspection. The participant(s) will not be allowed to participate in the event without first presenting a signed and completed inspection sheet.

Participants Name(s): _____

Make: _____ Model: _____ Year: _____ License Plate #: _____ State: _____

Pre-Event Technical Inspection should include, but is not limited to, the following items. Additional items should be included as deemed necessary by the inspector to ensure the safe condition of their vehicle. Please indicate with an "X" those items listed below that have been deemed acceptable:

- _____ 1. GENERAL: No excessive body or chassis corrosion.
- _____ 2. BATTERY: Securely mounted with no fluid leaks or corroded mountings.
- _____ 3. BRAKE FLUIDS: Must have adequate level, be in good condition and changed within the last six months. DATE OF LAST FLUID CHANGE: _____
- _____ 4. BRAKES: Must have sufficient lining thickness ($\frac{3}{4}$ of the pad thickness remaining recommended). Hoses and lines must not be cut, abraded, or cracked. Lines must not have excessive corrosion. Rotors and drums must not be worn beyond statutory requirements or manufacturer's recommendations. Master cylinder must not exhibit bleed down when steady pressure is applied. Brake equalization must be checked via road test. All brake lights must work.
- _____ 5. DRIVE AND HALF SHAFTS: Universal and CV joints must not have excessive looseness. CV joints must not leak lubricant. Drive shaft flex disc coupling must be in good condition and not exhibit cracks or deterioration. Drive shaft center support bearing must not have excessive looseness or deterioration of its mounting.
- _____ 6. DRIVE BELTS: Must be in sound condition and properly tensioned.
- _____ 7. ENGINE, TRANSMISSION, AND DIFFERENTIAL MOUNTS: Must be secure and must not exhibit signs of deterioration or permit excessive motion.
- _____ 8. EXHAUST: Must be securely mounted and in good condition.
- _____ 9. FUEL AND COOLANT HOSES: Must be in good condition and not exhibit cracks, swelling, or other deformation. Vehicles with potentially dangerous hoses will not be allowed on the track.

- 10. LEAKS: No coolant, brake fluid, or fuel leaks. No excessive oil leaks. Coolant level must be adequate.
- 11. MIRRORS: Must be securely mounted. Vehicle must have an inside rear-view mirror and left and right side-view mirrors.
- 12. PEDALS: Must be securely mounted, exhibit free return, and have securely mounted pads in sound condition. Brake pedal must be firm and not exhibit excessive travel.
- 13. SEAT BELTS: Must be securely mounted, in sound conditions, and have metal-to-metal buckles. Must have both driver and front passenger seatbelts. The seat belts must be at a minimum 3-point and similar on each side.
- 14. SEATS: Must be in sound condition and securely mounted. Headrests must be present and securely mounted.
- 15. STEERING: Must not exhibit looseness, play, or binding throughout range of travel. Steering box mounting must be secure. Power steering fluid level must be adequate.
- 16. SUSPENSION: Mounting points must be secure and in sound condition. Vehicle must not have excessive side-to-side height variation. Shock absorbers must provide adequate damping and be securely mounted.
- 17. THROTTLE LINKAGE: Must exhibit free return without binding through entire travel.
- 18. TIRES: No cracks, blisters, or cord may be evident. Both front tires and both rear tires must be the same size and fit within the wheel-well. 3/32" minimum tread depth except for racing tires. NO SNOW TIRES.
- 19. WHEEL BEARINGS: Must be properly adjusted with no excessive looseness. No lube leakage onto brake lines.
- 20. WHEELS: No cracked or bent rims. Lug nuts or bolts must be properly torqued. It is highly recommended that wheel torque be rechecked by the participant immediately before the event and periodically throughout the event.
- 21. WINDOWS: Must be secure and in sound condition.
- 22. WINDSHIELD WIPERS: Must be present, functional and in sound condition.
- 23. OTHER (SPECIFY): _____

INSPECTED BY: _____ DATE: _____

LOCATION OF INSPECTION: _____

PARTICIPANT CERTIFICATION

I hereby certify that a qualified individual has carefully examined the above vehicle and that all the above items have been checked. I understand that the safe condition and operation of this vehicle are entirely my responsibility, that the Sin City Chapter, of BMW CCA, Inc. and/or its members cannot be held liable or responsible for any vehicle problems, malfunctions, or damage which may occur in connection with the operation of this vehicle prior, during, or subsequent to the driving school.
